

ID Mail Systems, Inc.

Dispatcher MX

Dispatcher MX

Letters, Flats, Packets and Mixed Mail Sorting!

Who it helps:

- Presort Bureaus & Mail Service Companies
- Postal Operators and Private Delivery
- Corporate Mail Rooms

What it does:

- Sorts letters and flats up to 15" x 13" x 1.375" (380mm x 330mm x 35mm) in size
- Sorts letters up to 10,000 pieces per hour
- Intelligent franking, itemized manifesting, revenue protection, and USPS barcoding
- In-line weighing & dimensioning for postage rate calculation with printing and labeling of postal barcodes, indicia permits, itemized manifesting info, mail stops, routing codes and more

How it's different:

- Flexibility for processing wide range of mail & mix formats in one pass
- Cost savings – quick ROI
- Reliable industrial system
- Designed for postal operations 21 hours/7 days a week

Mail Types:

- Letters
- Flats & large letters
- Magazines/Poly
- Postcards
- Small packets & boxable parcels

Features:

- New In-line Auto Feeder
- Multi-font OCR & reading software
- One or Two Manual input stations
- Precise mail piece alignment
- 13" (330mm) field-of-view camera
- Polarized Imaging with LED Lamps
- 24" Touchscreen GUI
- In-motion scale
- Dimensioning via sensors and camera image
- Labeler and Inkjet Printer
- TL3 or SL3 sorting bins
- Output to trays or rolling containers
- 90 or 180 Degree Turn Conveyors for optimizing floor space

Maximum mail piece dimension range, excellent throughput, best-in-class flexibility, rugged reliability and affordable price points are just some of the Dispatcher MX mail sorting system benefits.
